

ENSURING EVERY CHILD IS PREPARED.

Measuring progress toward school readiness.

CHANGES IN ACHIEVEMENT LEVELS

370% INCREASE IN SCHOOL READINESS

This means, between fall 2014 and spring 2015, we saw significant growth—from 14 to 66 percent—in the number of 4-year-olds in our program who were at an advanced level for mastering critical school readiness skills—and so highly prepared for elementary school success.
